Docket No. 2009-101-W

To Whom It May Concern:

The first portion of this letter is to request an extension for the acceptance of our written testimony. I did not receive the letter giving a deadline for testimony information as we were out of town.

Should the extension above be accepted, I would like to submit the following facts:

This portion is to explain the monthly water usage fees charged by Utilities Services of South Carolina for our residential water account number

For years, the usual monthly charges for water service at the residence at 505 Dutchman Shores Circle, Chapin, SC, 29036 were around \$28.00 to \$35.00 dollars. In September 2008, the bill jumped to \$55.86 and distribution increased to 5,610 gallons. During September, the washing machine stopped working and was never reconnected.

For the month October 2008, again \$56.57 and gallons used 4910.

For November and December 2008, \$97.06 and gallons used 7,880, which is a 59-day billing. Please, note that no one occupied the home during these months.

For January 2009, \$136.48 and 2,480 gallons used and no one occupied the home.

For February 2009, \$28.34 and 1,240 gallons used and no one occupied the home.

Our home has only one bathroom that is connected to a septic tank and we do not have a sprinkler system.

Thank you for considering these facts in reaching a decision.

Debbie & Scott Burriss
